

ST. ANN'S CONVENT, VALENCIA

The house and property at Valencia were generously donated to the Sisters of St. Ann in 2003 by Mrs. Carmine Fernandes and her family as a token of gratitude for the care given to her mother, Mrs. Florine Fernandes, at our Home for the Aged in Angelore.

The house provides accommodation for candidates aspiring to religious life, offering them an opportunity to experience community life and discern their vocation more deeply.

Situated in the city, close to several colleges and the renowned Father Muller Hospital, the house also serves as a place of hospitality for people who come to the city for educational and medical purposes. Many seek accommodation while completing college admission formalities, while others accompany family members who come for medical treatment and need a place to stay for a day or longer.

The community is happy to extend a helping hand to those in need by offering them a safe, secure, and homely

environment. In this way, the Sisters provide comfort and support to families during their loved ones' hospital treatment and assist students and their families in fulfilling their educational needs. Through this ministry of hospitality, the community continues to express the congregation's charism of loving service and compassionate care.
